Election Reconciliation - Official Totals

County	**TARRANT**
Registered Voters	**1,339,364**

Election Name	**Joint General and Special Elections**
Election Date	**Tuesday November 3, 2026**

1. Voters (from election rosters)	
A. Early voting in person voters	573,450
B. Election day in person voters	137,401
C. Mail ballot voters	23,544
D. Provisional ballots submitted	2,536
E. Total voters (A+B+C+D)	736,931

2. Rejected ballots	
F. Mail ballots rejected	395
G. Provisional ballots rejected	1,328
H. Total ballots rejected (F+G)	1,723

3. Counted ballots (from tabulation software)	
I. Early voting ballots counted	573,306
J. Election day ballots counted	137,379
K. Mail ballots counted	23,065
L. Provisional ballots counted	1,179
M. Total ballots counted (I+J+K+L)	734,929

4. Comparison of voters and counted ballots

N. Difference between voters and ballots (E-H-M)	279	**O.** Difference as a percentage of voters (N÷(E-H)*100)	0.04%

P. Explanation for difference, if any:

see addendum attached

5. Attestation

Q. "I certify that the information contained in this document accurately reflects the official reconciliation of votes and voters from the above stated election" To the best of my knowledge & understanding, "

Presiding judge signature	Print Name	Date
Amie Saper	AMIE SAPER	11-13-2026

6. Mail ballots	
R. Mail ballots sent	28,236
S. Mail ballots not returned by voter	3,377
T. Mail ballots surrendered	1,315

7. Provisional ballots	
U. Provisional ballots deemed incomplete	29

Addendum to Official Reconciliation Box P for Nov. 3, 2026 Joint General & Special Election

Tarrant County, TX, November 13, 2026

P. Explanation for difference, if any:

Early Voting

Difference between boxes A and I = 145:

- Walk-offs (voters check-in but do not cast a ballot)
- Double check-ins (voters check-in and for some reason, e.g., spoiled ballot reprint issues, are checked-in again without cancelling the first check-in)

Election Day

Difference between boxes B and J = 22:

- Same as above

Mail Voting

Difference between boxes C and K = 479

1. EVBB rejected 395 mail ballots for various reasons. This is an overall rejection rate of 1.7%, mostly due to missing required identification on the carrier envelope. (This category includes voter-provided identification numbers that were valid but did not match what was on the voter record.)
2. 23544 received – 395 rejected = 23149 accepted by EVBB
3. Subtract 23078 scanned by EVBB: 23149 – 23078 = 71
4. Manually adjust the number of ballots accepted and scanned by EVBB by 4, due to mismatched ballots (single ballot returned in single carrier envelope with mismatched serial numbers on sheets 1 and 2). Per Hart InterCivic, the EVBB scanning software counts these as 2 ballots instead of one ballot. EVBB verifies these are 4 complete, individual ballots being counted by EVBB scanning software as 8 ballots scanned. Total with manual adjustment is 23074 ballots. Difference is 67.
5. Take away 14 empty envelopes (carrier envelope returned with no ballot inside) = 67 – 14 = 53
6. Take away 1 double ballot (carrier returned with 2 ballots inside, cannot be legally counted) 53 – 1 = 52
7. **52 is the difference between what EVBB reports as received and accepted, and what EVBB reports as scanned.** The most likely reasons for this are:
    a. Ballots not removed from carrier envelopes during the opening process.
    b. Ballots removed from carrier envelopes but not scanned.
    c. Empty envelopes that were not documented during the opening process.

    There is currently no way for the ballot board to verify the cause of this discrepancy, due to the short canvassing deadline imposed by the special election. If the EVBB had more time, they could investigate this discrepancy further.
8. Central count (cumulative report) is reporting **23065 cast vs 23078 scanned**, a difference of 13 ballots. This is due to incomplete ballots (voter only returned sheet 2 without sheet 1). Per Hart InterCivic, the tally software counts the votes on sheet 2 but does not increment the ballot cast number because sheet 1 is missing. Actual number of ballots accepted and scanned by EVBB is not wholly reflected in box K. This reconciles with EVBB reports of incomplete ballots.

As prepared by Alt. Judge Kat Cano
